Turn your special event into a green event using ***Recycle on the Go!*** A fully contained and transportable recycling program that makes recycling easier and greener than ever.

Green Operations: The ***Recycle on the Go!*** trailer system allows you to move, set up, transport, service and collect recycling.

Green Results: The ***Recycle on the Go!*** trailer system makes the recycling experience easy and pleasant for guests, and the recyclables collected help to preserve a green planet for future generations.

Green Revenues: The ***Recycle on the Go!*** trailer system creates a sustainable system based on marketable recyclables, cleaner events and cost effective operations.

Green Reputation: When attendees participate and see the bins fill up with recyclables, they come away with the message “this is a green event.”

Recycle on the GO!

The Clear Choice for Recycling!

Clearstream Container

Seeing is believing and a clear bag allows attendees to see the results of their participation. Successful recycling at special events reinforces the positive and wholesome benefits taught in school and reinforced at home with recycling education.

Recycle on the GO!

Recycling Made Easy

- No special equipment required
- Easily transported, set-up and stored
- Easy on your staff & volunteers
 - Easily monitored
 - Easily serviced
 - Easy clean-up

Recycle on the GO!

MAKES PERFECT SENSE

Implementing Recycle on the Go! at your event will contribute greatly to the event's overall success by promoting community values, improving the image of your event, reducing pollution and cutting costs.

Why Recycle?

Because It's The Right Thing To Do

Think about the values that your event itself embodies, such as community pride, personal health and thriving neighborhoods. Recycling plays an important role in putting those values into action. It is the one environmental activity that people participate in because it's so easy. Event goers who recycle at home will expect to recycle at your event.
